# Fire Resistant Filing Cabinets (FRFC)

Unprotected records are vulnerable to the risk of fire. A short circuit, a sparking wire could easily start a fire and before you know it your important documents have been charred to ashes. Even regular steel cupboards that are very often used for storage of documents or papers cannot withstand the intense temperature due to outbreak of fire.

Godrej Security Solutions offers you Fire Resisting Filing Cabinets that can withstand temperatures that exceed 1000°C. Offering robust insulation on the door and sides to prevent hot gases and flames from entering cabinet drawers. The cabinets are also efficiently designed to withstand a fall of a substantial height as well as endure falling debris.

## Features

- Fire Resistance for 60 mins and 120 mins
- Endures temperature up to 1000°C maintaining internal temperature within 177°C
- Heavy duty slides for easy & smooth operations of drawers having fire partition
- Unique interlocking system for independent drawer access
- Press-button release handle with built-in index panel on each drawer
- Tongue and groove construction prevents passage of hot gases into the drawers
- Snap-shut mechanism minimizes time taken to lock the cabinet during crisis
- Proprietary In-fill material structure shields the cabinet from floor collapse
- Additional locking options with Combination locks, Electronic locks and Biometric locks.
- Tested and IS 14561:2014 certified
